

## **WHAT TO STUDY:**

Review Introduction, Sections 1-3, and Summary

# Study Guide

Know and recall key terms in the lesson.

In the online text, key terms are highlighted in blue. Lesson 6 key terms are:

Topography	Vegetation	Nile River
Egypt	Kush	Mediterranean Sea
Canaan	Jordan River	

Review charts, diagrams, pictures and maps. In particular, the map of Physical Features of Ancient Egypt and Kush as well as the map of Physical Features of Ancient Canaan.

Review all reading notes in your online notebook.

## **WAYS TO STUDY:**

**Turn section headers into questions.**

Then answer the question in your own words.

Most questions start with *who*, *what*, *where*, *why*, *when* & *how*.

*Ex: 7.3 Physical Features of Egypt and Kush can be turned into a question such as "What were the physical features of Egypt and Kush?"*

Repeat this process with key terms. Ex: Key Term **Topography**. Make a key term a question. "*What is Topography?*" or "*What do I know about Topography?*"
